

#### SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

### Danger

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

#### Trade name

#### : SpiroxiLife MD 9

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses Uses advised against

: Spirometry : Consumer use. Uses other than those listed above are not supported, contact your supplier for more information on other uses.

#### 1.3. Details of the supplier of the safety data sheet

Sapio Life Srl Via S. Pellico, 48 20900 Monza (MB) +39 039 83981 | +39 039 836068 http://www.sapiolife.it sds@sapio.it

#### 1.4. Emergency telephone number

Emergency telephone number

: +39 0295705444 (24/7)

#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Physical hazards	Gases under pressure : Compressed gas	H280
Health hazards	Reproductive toxicity, Category 1A	H360D

: Danger

#### 2.2. Label elements

#### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)

H360D - May damage the unborn child.

: H280 - Contains gas under pressure; may explode if heated.

P280 - Wear protective gloves, protective clothing, eye protection. : P308+P313 - IF exposed or concerned: Get medical advice/attention.

: P202 - Do not handle until all safety precautions have been read and understood.

Signal word (CLP)

Hazard statements (CLP)

Precautionary statements (CLP)

- Prevention
- Response
- Storage

Supplemental information

: P403 - Store in a well-ventilated place.

P405 - Store locked up.

: Restricted to professional users.

### SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

#### 2.3. Other hazards

Not classified as PBT or vPvB.

The substance/mixture has no endocrine disrupting properties.

### **SECTION 3: Composition/information on ingredients**

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Nitrogen	CAS-No.: 7727-37-9 EC-No.: 231-783-9 EC Index-No.: REACH-no: *1	Balance	Press. Gas (Comp.), H280
oxygen	CAS-No.: 7782-44-7 EC-No.: 231-956-9 EC Index-No.: 008-001-00-8 REACH-no: *1	19 - 21	Ox. Gas 1, H270 Press. Gas (Comp.), H280
carbon monoxide	CAS-No.: 630-08-0 EC-No.: 211-128-3 EC Index-No.: 006-001-00-2 REACH-no: 01-2119480165-39	0,3 - 0,999	Flam. Gas 1B, H221 Press. Gas (Comp.), H280 Acute Tox. 3 (Inhalation:gas), H331 Repr. 1A, H360D STOT RE 1, H372
Helium	CAS-No.: 7440-59-7 EC-No.: 231-168-5 EC Index-No.: REACH-no: *1	7 - 16	Press. Gas (Comp.), H280

Full text of H- and EUH-statements: see section 16

Contains no other components or impurities which will influence the classification of the product.

\*1: Listed in Annex IV / V REACH, exempted from registration.

\*3: Registration not required: Substance manufactured or imported < 1t/y.

# SECTION 4: First aid measures

#### 4.1. Description of first aid measures

Inhalation	: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Perform cardiopulmonary resuscitation if breathing stopped.
Skin contact	: Adverse effects not expected from this product.
Eye contact	: Adverse effects not expected from this product.
Ingestion	: Ingestion is not considered a potential route of exposure.
4.2. Most important symptoms and effects, bo	oth acute and delayed

See section 11.

#### 4.3. Indication of any immediate medical attention and special treatment needed

None.

**SECTION 5: Firefighting measures** 

# Safety Data Sheet

### SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

: Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat

#### 5.1. Extinguishing media Suitable extinguishing media : Water spray or fog. Product does not burn, use fire control measures appropriate for the surrounding fire. Unsuitable extinguishing media : Do not use water jet to extinguish. 5.2. Special hazards arising from the substance or mixture Specific hazards : Exposure to fire may cause containers to rupture/explode. Hazardous combustion products : carbon monoxide. 5.3. Advice for firefighters

# Specific methods

Spe

	radiation may cause gas receptacies to rupture. Cool endangered receptacies with water spray jet from a protected position. Prevent water used in emergency cases from entering sewers and drainage systems. If possible, stop flow of product.
	Use water spray or fog to knock down fire fumes if possible.
	Move containers away from the fire area if this can be done without risk.
pecial protective equipment for fire fighters	: Wear gas tight chemically protective clothing in combination with self contained breathing apparatus.
	Standard EN 943-2: Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Gas-tight chemical protective suits for emergency teams.
	Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.

#### **SECTION 6: Accidental release measures** 6.1. Personal precautions, protective equipment and emergency procedures For non-emergency personnel : Act in accordance with local emergency plan. Evacuate area. Ensure adequate air ventilation. Stay upwind. See section 8 of the SDS for more information on personal protective equipment For emergency responders : Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. See section 5.3 of the SDS for more information.

#### 6.2. Environmental precautions

No additional information available

#### 6.3. Methods and material for containment and cleaning up

Ventilate area.

#### 6.4. Reference to other sections

See also sections 8 and 13.

### SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

# SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Safe use of the product	<ul> <li>Avoid exposure, obtain special instructions before use.</li> <li>The product must be handled in accordance with good industrial hygiene and safety procedures.</li> <li>Only experienced and properly instructed persons should handle gases under pressure.</li> <li>Consider pressure relief device(s) in gas installations.</li> <li>Ensure the complete gas system was (or is regularily) checked for leaks before use.</li> <li>Do not smoke while handling product.</li> <li>Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.</li> <li>Use only oxygen approved lubricants and oxygen approved sealings.</li> <li>Avoid suck back of water, acid and alkalis.</li> <li>Do not breathe gas.</li> <li>Avoid release of product into work area.</li> </ul>
Safe handling of the gas receptacle	<ul> <li>Avoid release of product find work area.</li> <li>Do not allow backfeed into the container. Protect containers from physical damage; do not drag, roll, slide or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If user experiences any difficulty operating valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Keep container valve outlets clean and free from contaminants particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment.</li> <li>Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another.</li> <li>Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the content of the container.</li> <li>Suck back of water into the container must be prevented. Open valve slowly to avoid pressure shock.</li> </ul>
7.2. Conditions for safe storage, including a	ny incompatibilities
	Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Container valve guards or caps should be in place. Containers should be stored in the vertical position and properly secured to prevent them from falling over. Stored containers should be periodically checked for general condition and leakage. Keep container below 50°C in a well ventilated place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

7.3. Specific end use(s)

None.

### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

#### 8.2. Exposure controls

8.2.1. Appropriate engineering controls	
	Product to be handled in a closed system and under strictly controlled conditions. Provide adequate general and local exhaust ventilation. Preferably use permanent leak-tight installations (e.g. welded pipes). Systems under pressure should be regularily checked for leakages. Ensure exposure is below occupational exposure limits (where available). Consider the use of a work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. perso	onal protective equipment
	A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Wear safety glasses with side shields.
Skin protection	Standard EN 166 - Personal eye-protection - specifications.
Hand protection	: Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk.
Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
Respiratory protection	<ul> <li>When indicated by a risk assessment, Respiratory Protective Equipment must be used. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected RPD.</li> <li>Self contained breathing apparatus is recommended, where unknown exposure may be expected, e.g. during maintenance activities on installation systems.</li> <li>Keep self contained breathing apparatus readily available for emergency use.</li> <li>Consult respiratory device supplier's product information for the selection of the appropriate device.</li> <li>Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.</li> </ul>
Thermal hazards	: None in addition to the above sections.
8.2.3. Environmental exposure controls	
	Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

# **SECTION 9: Physical and chemical properties**

Appearance	
<ul> <li>Physical state at 20°C / 101.3kPa</li> </ul>	: Gas
- Colour	: Mixture contains one or more component(s) which have the following colour(s): Colourless.
Odour	: Odourless.
	Odour threshold is subjective and inadequate to warn of overexposure.
рН	: Not applicable for gases and gas mixtures.
Melting point / Freezing point	: Not applicable for gases and gas mixtures.
Boiling point	: Not applicable for gas mixtures.
Flash point	: Not applicable for gases and gas mixtures.
Flammability	: Non flammable.
Explosive limits	: Non flammable.
Lower explosive limit (LEL)	: Not available
Upper explosive limit (UEL)	: Not available
Vapour pressure [20°C]	: Not applicable.
Vapour pressure [50°C]	: Not applicable.
Density	: Not applicable
Vapour density	: Not applicable for gases and gas mixtures.
Relative density, liquid (water=1)	: Not applicable

# SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

#### 9.2. Other information

9.2.1. Information with regard to physical hazard classes		
Oxidising properties	:	No oxidising properties.
	:	
9.2.2. Other safety characteristics		
Other data	:	None.

SECTION 10: Stability and reactivity	
10.1. Reactivity	
	Data for mixture are not available.
10.2. Chemical stability	
	Stable under normal conditions.
10.3. Possibility of hazardous reactions	
	None.
Reactivity	: This mixture contains components with the following reactivity : Violently oxidises organic material. Can form explosive mixture with air. May react violently with oxidants.
10.4. Conditions to avoid	
	Avoid moisture in installation systems.
10.5. Incompatible materials	
	For additional information on compatibility refer to ISO 11114.
10.6. Hazardous decomposition products	
	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information	
11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008	
Acute toxicity	: Classification criteria are not met.

Acute toxicity	: Classification criteria are not met.
carbon monoxide (630-08-0)	
LC50 Inhalation - Rat [ppm]	3760 ppm/1h (ADR) 1300 ppm/4h (CLP)
Skin corrosion/irritation	: No known effects from this product.
Serious eye damage/irritation	: No known effects from this product.
Respiratory or skin sensitisation	: No known effects from this product.
Germ cell mutagenicity	: No known effects from this product.
Carcinogenicity	: No known effects from this product.
Toxic for reproduction : Fertility	: No known effects from this product.
Toxic for reproduction : unborn child	: May damage the unborn child.
STOT-single exposure	: No known effects from this product.

### SpiroxiLife MD 9

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2015/830 Revision date: 12/1/2016 Version: 2.0

<u>11.2. Information on other hazards</u>	STOT-repeated exposure Aspiration hazard	<ul><li>Classification criteria are not met.</li><li>Not applicable for gases and gas mixtures.</li></ul>
Other information The substance/mixture has no endocrine disrupting properties	11.2. Information on other hazards	
• The substancemixture has no choosine disrupting properties.	Other information	: The substance/mixture has no endocrine disrupting properties.

### **SECTION 12: Ecological information**

<u>12.1. Toxicity</u>	
Assessment	: Classification criteria are not met.
EC50 48h - Daphnia magna [mg/l]	: No data available.
EC50 72h - Algae [mg/l] LC50 96 h - Fish [mg/l]	: No data available. : No data available.
	. NO Udla available.
12.2. Persistence and degradability	
Assessment	: No data available.
12.3. Bioaccumulative potential	
Assessment	: No data available.
<u>12.4. Mobility in soil</u>	
Assessment	: Because of its high volatility, the product is unlikely to cause ground or water pollution. Partition into soil is unlikely.
12.5. Results of PBT and vPvB assessment	
Assessment	: Not classified as PBT or vPvB.
12.6. Endocrine disrupting properties	
	The substance/mixture has no endocrine disrupting properties.
12.7. Other adverse effects	
Other adverse effects	: No known effects from this product.
Effect on the ozone layer	: No effect on the ozone layer.
Effect on global warming	: No known effects from this product.

SECTION 13: Disposal considerations		
13.1. Waste treatment methods		
	Contact supplier if guidance is required. Must not be discharged to atmosphere. Ensure that the emission levels from local regulations or operating permits are not exceeded. Refer to the EIGA code of practice Doc.30 "Disposal of Gases", downloadable at http://www.eiga.eu for more guidance on suitable disposal methods. Return unused product in original container to supplier.	
List of hazardous waste codes (from Commission Decision 2000/532/EC as amended)	: 16 05 05 : Gases in pressure containers other than those mentioned in 16 05 04.	
13.2. Additional information		

External treatment and disposal of waste should comply with applicable local and/or national regulations.

Special transport precautions

- : Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in
- the event of an accident or an emergency.
- Before transporting product containers:
- Ensure there is adequate ventilation.
- Ensure that containers are firmly secured.
- Ensure valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.

#### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable.
